Errol Flynn, movie actor, was held for trial on two charges of rape, after hearings in Hollywood. One of the accusers said she was 15 when Flynn raped her on his yacht; the California law protects children by making the age of consent 18.

Behind the news: In 1937 Errol Flynn came to Madrid, saying he was bringing a large sum of money and the good will of the movie a colony to the Loyalists in their fight against Hitler, Mussolini and Franco, the Axis. This was a falsehood.

One night Flynn disappeared. Next morning he left for Valencial The same day the entire American press front-paged a thrilling Story of how Flynn was wounded in the frontline trenches of Madrid.

Dear Sir:

RO: ERROL FLYNN SELECTIVE SERVICE

The following excerpt appeared in the column, "THESE UHARRING PROPER," by Igor Cassini, and was published in the membing-ton Times Herald on June 19, 1942.

Marrol Flynn, who was deferred by his Hiwood draft board because of a heart condition. Funny that this should happen to the hero of the greatest screen battles, to the tennis champion of the movie colony, to an ex-boxer and to the greatest athlete of all Hollywood. Flynn's friends, however, say that he's burned up about criticism and that he wants to get into the army at all costs. Re'll see. Errol looks healthler to us than many men they take every day. If it's his heart that is wook, Flynn should have been buried a long time ago.

It is desired that you immediately check the records of the Local Selective Service Board covering the residence of Errol Timm and review Flynn's Selective Service file. You should furnish the Bureau with the complete facts concerning llynn's deferment within seven days.

This injuly should be conducted in a very discreet manner of that the fact it is, being made will not be publicized.

Charming People

By IGOR CASSINI

IF THE reports coming from 1 Buenos Aires are true, Senor Dan Yelipe Espil, the impeccable Argentine ambassador to

will soon be on his way to Spain. Rumors to the effect that Espil would be trans. ferred to another post have been circulating among diplomatic circles in the Capital for some time. It was the general

belief, however, that Ambassa dor Espil would be sent to London. He himself desired it, and that was especially the wish of his elegant U. S. born wife in case they had to leave Wash-

The departure of the Espils from Washington will certainly be felt in the upper strata of Capital society. After Peruvian Ambassador Don Manuel de Frevre y Santander, Espil has held his post in Washington longer than any other envoy. He was already one of the most popular unattached diplomats when he was only a dashing secretary at the Argentine embassy In those times he often here. In those times of Balti-saw Wallis Warfield, of Baltimore, now the Duchess of Windsor, but Espil's bachelor days ended when he met the exquisite Chicago divorcee, Courtney Letts Stillwell Borden.

UNDER Ambassador and Senora de Espil's guidance the Argentine Embassy became one of the favorite rendezvous for the diplomatic elite. Their embassy rose almost to a par with the embassies of greatest European powers, When war broke in Europe it was one of the few places left where you could meet, elbowing each other, the envoys of Great Britain, Germany, France and Italy. It was also one of the few embassies which could freely enter-After the conference of Rio de Janeiro, when Argentina and Chile refused to join all the other American Republics in a clear stand against the Axis, a cloud of momentary resentment and disfavor rounded the Argentine Embassy. But the Esplis could not be blamed for that, even though in certain quarters malicious stories were being spread that Espil had played an important part in advising his government not to let itself be charmed by the bland words of Sumper Welles of the U.S. There is no

• reason whatsoever to believe this, when Espil has been so long in the United States, has siways shown his friendship for this country, and is married to a U. S. girl.

According to the Buenos Aires reports Dr. Carlos Alberto Acevedo, Minister of Finance, is to be put in Espil's place in Washing-Handsome Felipe and Courtney Espil, ranked as the fifth best dressed woman in the world, would then abandon a chagrined Washington to embellish Madrid, the once glittering capital of Spain.

Errol Flynn, who was deterred by his H'woodiraft board because of a hear rondition. Funny that the should happen to the hero of the greatest screen battles, to the tennis champion of the movie colony, to an ex-boxer and to the greatest stricte of al! Hollywood, Flynn's friends, however, say that he's burned to about criticism and that ac wants to get into the Army 2: a la costs. We'll see. clerk of Local Draft Board No. 246, City Hall, Beverly Hills, California, advised that the subject had been disqualified for military service by the United States Army Examining Board because of tuberculosis, and therefore had been placed in a IV-F classification by the local board. Mr. ivised that Mr. A. E. PEIR, 632 North Altadena, Beverly Hills, telephone Crestview 61454, was chairman of the local board, and that J. L. PRETTY, 347—North Swetzer, Beverly Hills, telephone York 0493, and Mr. BUSDNE STARTHAM. 732 North Camden Drive, West Los Angeles, telephone Crestview 6-4445, were the members of Local Board No. 246 and had been the members in their respective positions since the inception of this board.

The subject's Selective Service file was obtained from Mr. and it reflected that on February 2, 1942, the subject was disqualified for military service by reason of "tuberculosis, pulmonery, chronic reinfection (adult), type in the right apex." His physical examination was signed by JOSEPH P. SZUKALSKI, Major M.C., examining physician.

Photographic copies were made of the subject's Selective Service file, and two copies are being forwarded to the Bureau. One photographic copy of this file and the negatives are being retained in the instant file in the Los Angeles Field Office. Subject's file was returned to Local Board No. 246 on July 1, 1942.

In view of the fact that there appears to be no violation of the Selective Training and Service Act in the subject's deferment, no further investigation will be conducted unless requested by the Bureau.

ENCLOSURES FOR THE BUREAU: Two photographic copies of subject's Selective Service file.

Upon your authority, the writer contacted of the Board of Economic Warfare in regard to the shipment of the radio aboard the "Little Sorocco," mentioned in the attached teletype from the El Paso Office, dated February 25, 1943, particularly whether the taking of this radio out of the United States without a license is a violation of the Export Control Act.

advised that Errol Flynn has a license for the shipment of the listing boat "Little Sorocco," with appurtenances, to Merico, but that the shipment of instant radio is not licensed. stated that the shipment of this radio is a possible technical violation of the . Export Control Act and that the sale of the radio in L'exico would be a definite violation; however, he suggested that the Customs officials at El Paso, Texas, should obtain a bond from Flynn for the return of this radio to the United States, which, if done, would make a violation of the Export Control Act doubtful. stated that if a bond were posted, the BER would not believe the case worthy of prosecution in the event a technical violation is proven.

ACTION_

A teletyne was sent to the El Paso Office on February 27, 1943, setting forth sections and instructing that same be made available to the Customs Service for its assistance in determining whether Flynn should obtain an export license for the shipment of this radio from the United States or whether the posting of a bond insuring its return to this country will suffice. The El Paso Office was also informed that the action taken by the Customs authorities should govern and that it will not oscar be necessary for that office to conduct any further investigation at the present time.

Respectfully,

HIUTRALITY ACT - EXPOST CONTROL

Reference is made to the teletype dated February 25, 1943, from the El Paso field office in the acove captioned Mine Geory matter. The Customsofficials at El Paso advise that the motor boat "Little Sorocco" owned by Errol Flynn, the motion picting actor, has been shipped from Hollywood, California, via freight to Fl Paso, Texas, for trans to Acapulco, Merico. The Customs orticials tound aboard this boat the above-mentioned radio owned by and registered for use aboard the yacht wittle Mona"

Onled by A request was made to determine whether the radio above-mentioned was contained on the Embargo List and whether the shipment to Mexico had been covered by an Export license. Upon the receit of the above teletype, Supervisor R. O. Kittelsen communicated with of the Board of Economic Warfare, at which time the latter stated that Errol Flynn had secured a license for the shipment of his fishing boat "Little Sorocco" with appurtenances to Wexico but that the shipment of instant radio was not licensed. considered this shipment a possible technical violation of the Export Control Act. He stated further that the sale of the radio in L'exico would be a definite violation. He suggested, however, that the Customs officials at El Paso, Texas, should obtain a bond from Flynn for the return of the radio to the United States which, if done, would make a

There are several angles to be considered in this matter. In the first instance, attempts to ship materials on the Embargo List outside of the United States are not covered in the Act. The next possibility is that a conspiracy does not exist since Flynn has not conspired with any other persons apparently in undertaking the shipping. Until the radio has actually been shipped from the United States, it is highly doubtful that even a technical violation is present. Accordingly, the following instructions were issued telephonically to SA of the Fl Paso field office at 4:30 p.m. on March, 1, 1943.

well as the decision of a representative of the Board of Economic Warfare. It was suggested that this matter be discussed with the Customs officials at El Paso, Texas, and that the suggestion offered by the Board of Economic Warfare concerning the securing of a bond guaranteeing a return of this radio to the United States also be set forth. It was pointed out definitely that the action to be taken should be left entirely within the province of the Customs Service and that they apparently had the following lines of action open: First, to let the radio be snipped without an Export license, which it is doubtful that they would do; second, to require Flynn to secure an Export license for the radio; and third, to require the posting of a bond guaranteeing the return of the radio to the United States by Flynn. In conclusion it was pointed out that the ultimate action recommended by the Customs Service should govern and it was not necessary for El Paso to conduct any further investigation at this time.

AME"ICAN GAMBLING ACTIVITIES IN CUBA ANT I - PLACKETEERING

ALL INFORMATION COUTAG

Reference Havana letter January 8, 1953. Since the submission of reference letter, the following information has been developed concerning the activities of American gamblers in Havana:

The gambling casinos in Cuba were closed from January 1, 1959, the date of the overthrow of the BATISTA regime, until -February 19, 1959, when certain casinos were permitted to reopen by government decree: Contacts with numerous sources affiliated with American gamblers in Cuba indicated that during the period gambling casines wert closed very little overt effort was made on the part of any of the American incomest holders to obtain permissic to reopen. On January 8, 1959, dvised the American casino operators intended to have casino and notel employees bring pressure to bear on the (aban Government to permit the recpening of gambling casinos. , -

Subsequently numerous demonstrations were held by employees of the various gembling casinos petitioning the government to permit 12 - the reopening the casinos in order to provide comployment for the 11, hotel and casino workers. Permission was finally granted on 14- February 19, 1000, for the following ansinos to purpon: Tropicana, 5 Sans Souci, Commission, Riviera, Hilton, Nacional, Capri and St. Johns. .6 The Deauville, Swilla-Biltmore and Plaza casinos were not granted permission to reopen.

edvised on February 21, 1959, that the government .0 decree allowin certain gambling casines to reopen had been brought about by the strong threats made on the part of the hotel employees. unions to go or while unless their demands were board and the casinos reopenes. Source noted that the Cuban Government began February 11, 1903, to confiscate all slot machines in all gambiing casinos in Havina.

With reference to the recent news comment

concerning the situation in Hollywood, California,
wherein it is alleged that 300 or more girls each month with finding
disappear, and the story of vice existing there, the
Eureau has had no directed activity toward this condition.
Thite Slave Traffic Act violations have been sporadically
reported in the area. They do not appear to be tied in to
any pattern in the movie colony.

Action to be taken:

In view of the article, we are requesting the Los Anceles Office to furnish the details with reference to the news item and the cases which have been recently brought to their attention which may tie into Hollywood vice. It does appear from the article that these girls come from all sections of the country and ena up in the Hollywood colony, and because of reverses and failure to obtain employment they turn to vice. This is not in viclation of the White Slave Traffic Act but does reveal, if true, an approvated condition and a failure on the part of local law enforcement to properly perform its duty.

SIR:

I have the honor, with reference to my despatch no. 622 of November 17, 1939, and other reports relating to the German vessel Ussulums which was at the port of Ingeniero white at Bahia Blanca prior to being scuttled off the east coast of Argentina, to transmit herewith a memorandum prepared by Vice Consul Clifton P. English. regarding the departure for Chile of Dr. Hermann P. Erben, an American citizen who was serving as ship's surgeon aboard the Ussuluma. It will be noted that Dr. Erben's record and conduct have been such as to give rise to some suspicion with respect to his trustworthiness and loyalty.

SUBJECT: Dr. Hermann F. Erben of the German Merchant Vessel Usaukuma.

Reference is made to the memorandum transmitted with despatch no. 602 of November 17, 1939, setting forth information obtained from the naturalized American citizen, Dr. Hermann P. Krben. It will be recalled that Dr. Erben was ship's physician on the German wessel Ussukuma. This person recently departed for Chile, stating that he intended to take a Grace Line ship for the United States.

When Dr. Erben left the Ussulara in Balia Blanca, he came to Eucnos Aires and reported to the Consulate General his desire of returning immediately to the United States. He then made several attempts to secure passage on ships in Bumos Aires, but without success. In this connection reference is made to despatch no. 17 This connection reference is made to despatch not follow that for or kovember 21, 1939, in which it was reported that Dr. Nrben's activities as an "ardent Nazi" while serving as ship's physician on the S.C. Vahwah, an American vesting in 1936 allegedly had occasioned so much trouble that it was necessary for the master to return him from him of Janeiro to the United States on a ship of another lines and that Emban was not in New Orleans by Issuess. line; and that Erben was met in New Orleans by Immigration and Department of Justice officers.

After he had been in Buenes Aires several days, Dr. brben received a telegram in care of the Consulate General and announced that he had received good news, that he was about to receive a sum of money, that he no longer wished to take a ship from Buenos Aires and that he would some large for Chila soon leave for Chile. Subsequently he stated that he was going to Chile to see a "doctor friend who has recently arrived there", and that he was not certain just how he would go to the United States but that he would try to go on a vessel of the Grace Line.

Before he left he gave me several pictures of the Admiral Graf Spee and the Ussukuma, and promised to sand me more of the Ussukuma which had been taken while that wessel was at sea between Lourenco Marques and Bahia Blanca. These pictures showed the vessel flying the Portuguese flag, with the name Ussukuma obliterated and the name "Quansa" (for a Portuguese ship) painted over the former. He stated that he would have given them to

me earlier but that he had sent them with some baggage to San Francisco on board the S.S. Grenanger. Finally, the day before he left for Chile he let slip a remark to the effect that Tito Martens, who is the agent in Buenos Aires for the North German Lloyd and who is reported to have much influence in Nazi circles in Argentina, had said to him that he would make a "good agent". He asserted that he had not understood what Martens had meant at first, but that he had gone to the German Embassy the afternoon of the same day and placed his services at its disposal.

Dr. Erben left for Chile on Decomber 24, but before departing gave me two addresses at which he might be reached in the United States. He said also that he was a good friend of Erroll Tlynn, the motion picture actor, and that he might be found through him. The addresses he gave me are as follow:

BUBJECT: Erben, Dr. Hermann Frederick

The Honorable

The Secretary of State,

Washington.

51r:

I have the honor to refer to this Consulate's despatch No. 52 of January 26, 1940 entitled Erben, Dr. Hermann Frederick and to report further to the Department regarding the person who is the subject of this despatch.

on January 26 ultimo the American SE NIGHTINGALE selled at this port and the master reported that he needed a messman for the crew and requested this Consulate to provide one if any was available. Dr. Erben was then in this port as a passenger from Valparaiso to Callao on the Japanese MS/HEIYO MARU, and, since he had requested this Consulate's assistance in signing on an American vessel, stating that he would do anything, for the purpose of returning to the United States, he was told about the vacancy in the NIGHTINGALE's crew and he promptly requested to be signed on the vessel to fill the Vacancy. The master of the vessel, Captain Laurence B. Parker, was agreeable so Dr. Erben became a member of the vessel's crew, and sailed southbound on the above date.

The MIGHTINGALE called at this port morthbound on February 7th and Dr. Erben called at this Consulate to ask the undersigned to persuade Captain Parker to discharge him from the vessel when it reached the Panama Canal, stating that when he left the German vessels USUKAKA at Buenos Aires, in which he claimed to have been serving as a ship's surgeon, he had been permitted only to bring the khaki uniform he was wearing and that with only this clothing he could not brave the rigor of winter in New York. He thought if he could be discharged from the MIGHTINGALE at the Panama Canal he would be able to support himself with the wages he had earned (some \$25.00) until he sould catch a vessel bound for California where the elimate would be milder, and where he had friends

WELC

11-682-26276

It was ebserved, however, that he managed to save a very good camera.

who would him. When asked who the friends were he mentioned the names of Errol/Flynn he actor, and Ernest Hemingway, the author, with whom he had gone to Spain to fight in the recent civil war in that country. Dr. Erben was informed that the Consulate had no authority to induce Captain Parker or the Canal Zone authorities to let him sign off there. He returned to the vessel and sailed morth in it when it departed from this port on February Sth.

Captain Parker also called at the Consulate on February 8th to report that he had become very suspicious of the man (Dr. Erben) which he had signed on here while southbound. He reported that upon reaching Valparaiso Dr. Erben was met by a large delegation from the members of the crew of the German sailing ship PRIEWALD, which is taking refuge there, and that the impression he gained was that Dr. Erben was a man of considerable importance to them judging by the deference they showed him and the number of Nazi salutes given to him. While in Valparaiso Dr. Erben, when not doing his job on the MIGHTINGALE, spent all of his time aboard the German vessel or photographing anything he could train his camera on. Captain Parker said he obtained a boat and went around the Chilean battleship LATORRE photographing it from stem to stern. When the NIGHTINGALE called at Coquimbo northbound Dr. Erben was again met by a large delegation of Germans, and Captain Parker gained the impression that he was well known and appeared to be a man of importance to most members of the delegation. At this port Dr. Erben busily photographed everything in sight including the American vessel in which he was serving. Captain Parker's suspicion of Dr. Erben increased and, since he knew he was coming to Antofagasta to ship a cargo of 4,800 tons of copper which will probably eventually find its way to the allies in the European war, he gave orders to the ship's officers to keep a sharp watch over Dr. Erben and not permit him access to certain parts of the ship. Afterward, the Chief Engineer reported that Erben attempted to gain access with his camera to the engine room. This was not permitted because the NIGHTINGALE is one of the new Maritime Commission freighters said to have some new developments in the engine room. Strict orders were imparted to keep Erben out of the engine room.

Captain Parker said that Erben had taken up with him the question of his discharge at the Canal Zone, and had been told that since the vessel would not make formal entry them but only stop to bunker, the appropriate officials would not be on hand to effect his discharge and that it could not be done.

Mowever, Captain Parker stated to the undersigned that the discharge could be effected while his vessel was bunkering provided it should be agreeable to the authorities, and requested this Consulate to communicate with the authorities of the Canal Zone and request them to inform him upon his arrival there if

the man me, 's discharged. Captain Parker feels sure
that Erber a German agent, despite status as
a naturalized American, and he wishes to proceed
accordingly. Therefore, he wishes advance notice from
the Canal Zone authorities so if they refuse to allow
Erben's discharge there he can take action which would
not tend to arouse Erben's suspicion that he is
suspected of being the agent of a foreign power
attempting to gain access to the Canal. No communication has been sent to any authorities of the Canal
but a copy of this despatch has been sent to our
Embassy at Panama for any action deemed by it to be
appropriate.

In addition to Captain Parker's report that Erben photographed everything around the port works at Antofagasta including the copper loading operations on the NIGHTINGALE, the undersigned observed certain activity on his part which was interesting. During the afternoon of February 7th at about 3:00 o'clock Dr. Erben was seen entering the German bank together with the leader of the German Wazi party here, who is a German national. Had Dr. Erben wished to obtain exchange of money it seems likely that he would have effected the transaction in the street where & more favorable rate could be had. In any case it does not seem necessary that he should have been accompanied by the Mazi leader in order to effect a simple exchange operation. The deduction drawn is that he was either receiving money from the bank or using it as a means of transmitting and receiving messages.

During the conversations had with Dr. Erben certain interesting information was received, but it must be taken into account that it was all the result of his own statements. His mother, Johana Erben, resides in Vienna at III Arenbergring 19, and he has two sons in the German army now on active duty after serving in the Pelish empaign. Just before the Munich crisis he was visiting his mother, and he received instructions to report to army headquarters. He did and he was given a rank in the medical corps, outfitted with a uniform and accountrements, and told if war should break out he was to report at a certain hospital bringing 5-day's rations. He said that he protested on the ground that he was an American citizen, but he was told "you were born a German, you are of German race, you are a German, and you always will be a German". Dr. Erben admitted participation in the Spanish civil war and the present conflict in China. He reported that the only way he could get out of Germany was to place himself under the orders of the German Admiralty and ship as surgeon on a German ship. He stated that when he reached Buenos Aires on a German ship, presumably the USUKAMA, after the outbreak of war, and learned that it had become unlawful for American citizens to serve in belligerent

Vessels

vessels h / ft the vessel voluntaril . Mowever, he was considered by German officials at " enos Aires to be on active duty and was told to prepare to be returned to Germany for further service. He then received orders to report to the German TACOMA but he never did this because the vessel became embroiled in the GRAF SPEE affair and was interned in Uruguay. He reported that he then asked the German officials at Buenos Aires (not stating whether of the German Embassy or others) for permission to return to Germany by his own means. His petition was granted so he said because "I am on active duty with the German" Admiralty" and it realized that I would have a better chance of returning to Germany and resuming service that way than if I went to sea from Buenos Aires on a German vessel which would almost certainly be sunk". He said that he adopted this procedure to get away from the Germans and reach the United States. His subsequent conduct along the west coast of South America does not bear out his desire to liberate himself from contact with Germans, but he claims that he must continue "to put on an act to obviate reprisals against those I love who are residing in Germany". When he reached Valparaiso Dr. Erben reports that he received orders to report to a German vessel in Talcahuano and put to sea when it did. He claimed that he disregarded these orders and embarked as a passenger on the Japanese HEIYO MARU in an attempt to return to the United States. If he fears reprisals against relatives in Germany it appears that disregarding orders will be an excellent way to bring them about. Dr. Erben is not, of course, telling his whole story. The fact that Dr. Erben is on the British list of suspected German agents, as reported by the British Consul here, is also significant.

Respectfully yours,

GEORGE H. ADAMS

Stating that when he left the stating to the claimed to have been serving as a ship's surgeon, he had been permitted only to bring the knaki uniform he was wearing* and that with only this clothing he could not brave the rigor of winter in New York. He thought if he could be discharged from the MIGHTINGALE at Panama he would be able to support himself with the wages he had earned (some \$25.00) until he could catch a vessel bound for California where the climate would be milder, and where he had friends who would help him. When asked who the friends were he mentioned the names of Erroly Flynn, the actor, and Ernest demingway, the author with whom he had gone to Spain to fight in the recent civil war, in the tountry. Dr. Erben was informed that the Consulate had no authority to induce Captain Farker or the Canal Zono authorities to let him sign off there. He returned to the vessel and sailed north in it when it departed from this port on February 8th.

isiting various towns in Faregury, Nio de Janeiro in Brazil, luches fires in the A recutine, and various other places in South Burnica, his work at this time consisting of lectures on various tropical discases.

In 1931 he returned to the United States and became a surjuon on the S. S. <u>President Garfield</u> of the Dollar Line. He stated that this was the position in which he took the most pride inashuch as he held it for a year and a half to December 23, 1932, at which time he was discharged. In explanation of his discharge, he stated that he had become acquainted with one HELEN HASKIN SOUTH, a newspaper woman, who regarded herself as enjaged to him and who became very much enraged when he became enjaged to semeone else as a result of which she informed the Bureau of Narcotics that he was a dope sauggler, and in the resulting investigation, which in sted from 1932 to 1936, he was continually under a cloud of suspicion.

In the early part of 1933, following his discharge from the <u>President Garfield</u>, Doctor ERBEN stated that he enlisted as a war surgeon in the Chinese Red Cross under promises as to compensation which to him seemed ver y attractive. He proceeded to Shanghai, China, but on his arrival found that the promises would not be kept and he accordingly ceased his connection with the Chinese Red Cross.

Fearing of the development of new gold fields in New Guinea, he thought that they offered some possibility to him, and he accordingly proceeded to New Guinea, and there met a man attired in one term shirt and one term pair of pants who is the individual who is now known as EMOLAFLYNN, the movie actor. He stated that he and EMOLAFLYNN burned around together, traveling finally from New Guinea to India, to Abyssinia, and then to Vienna, Justria, arriving in the spring of 1934. In Vienna he spent the next year in postgraduate work at the University of Vienna and at the same time obtained his divorce.

In 1935, following his completion of postgraduate work, he was appointed surgeon for the Austro-American trans-Asiatic expedition which was backed by the University of Vienna and an automobile association in Vienna, the object of which was to map a route from Burna up through China, a and the route so appead by this expedition EMBER claimed to be the one presently used by Chiang Kai Shek, Chinese generalissime, in obtaining his supplies from French Into-China.

In 1935, returning from this expedition to India, Doctor In EN-stated that he was arrested on a revolver charge and fined 300 rupees, which he paid. He explained that the revolver charge was mertly a trumped-up matter and that the real difficulty arose out of the association instituted two years before; that

Aboard the S. S. West Mahwah, Doctor ERBEN stated, his roubles began in connection with a call which the ship made at uerto Rico as a result of which four Puerto Ricans were discovered as stowaways. He stated that the captain of the ship, instead of putting back to port to have the stowaways removed, ordered them tossed overboard to smin ashore, and when it turned out that one of the stowaways had important connections there were violent repercussions in Puerto Rico inasmuch as an election was browing about that time. As a result of the friction which developed he stated that the captain of the ship made various charges against him an' on January 6, 1937, he was discharged from the ship at Rio de Janeiro, returning to the United States via New Orleans where he was mot by various narcotic and naval intelligence agents and questioner, finally being released. He stated that also in New. orleans he met lirs. MICARY, who was then using the name of its about the having come to new Orleans for the racing season and the two of them living at the Hotel Jung in No w Orleans for

Doctor ERBEN stated that he evidently had been under observation inastuch as Hrs. EDW/RDS! room was searched immediately after his departure, she being suspected of having in her possession narcotics which he had given her.

ERBEN next went to Los Angeles, where he stayed for a few days with ERROL FLYNN. He and FLYNN, becoming bore d with lack of a ctivity, then decided to go to Spain and participate in the Spanish Civil War. They first intended to join the forces of General ELANCO, but en reaching England found that they could not make proper connections, whereupon Doctor ERBEN endeavored to make arrangements through Germany, still being unsuccessful, and still desiring to participate in the activities, they thereupon ment to Paris and joined the Loyalist forces. Doctor ERBEN stated that this changeover indicated that they had me definite Pascist or Communist leanings in connection with the matter but were merely anxious to participate in the conflict in some capacity.

Doctor ERBEN stated that he personally did war surgery at an anarchist hospital, explaining that there were two classes of hospitals - anarchist and Communist - in the Loyalist forces. After about four months ERROL FERMS was subject to falling plaster caused by shell fire, and from the resulting publicity determined to return tember United States, which he did. Doctor ERBEN stated that although FLYNN was not actually injured he did get a bump on the actually and first reports had it that he was killed. U

Doctor EdBEN continued in Spain for about eight months, during which time he became acque inted with such persons as EDNEST HENDING ANNA LOUISE STRONG (the Communist writer), DOS PASSOS,

luggage were five small paper packages described as bindles of morphine. In the luggage also was a scrapbook containing news paper clippings and photographs of ERHEN'S various traveles around the world. Most of the data contained therein already appears in the San Francisco file of this case; however, various clippings showed the following criminal record for ERHEN:

In September 1935 he was arrested by the Calcutta, India, Police under Section 19F of the Indian Arms Act on the charge of possession of revolver and cartridges without license. He was sentenced to pay a fine of 300 rupees or three months in jail. He paid the fine and was ordered deported from India.

A clipping from a Barcelona, Spain, newspaper, date not shown, but it would appear to have been published during the period that EREN was in Spain with ERROIAFLYNN, the motion picture actor, inasmuch as one photograph shows FMYNN and ERBEN at dinner with the second commissar of Propaganda in Barcelona, states that ERBEN is a militant of Communists.

INVESTIGATION BAN PRANCISCO. 7.1s Case Originated At Made by Report Made at Dete Hade 12/19/40 SAN FRANCISCO, CALIF. Character of Case Title STROPS IS OF PACTS! Report of Special Agent California, Mry 15, 1940.

By letter dated August 26, 1940 the Bureau forwarded information from the State Department originating from Mr. NORMAN ARMOUR, the American Consul at Buenos Aires, South America. In this report it is stated that a member of the staff of the American Embassy at Busnes Aires in a conversation with Mr. ERROL) FLYNN verified that DR. ERREN and MR. FLYNN are close friends. MR. FLYNN stated that he had known DR. ERHEN for about ten years and that they had worked together in Spain during the Spanish civil war. He spoke very highly of ERHER CO. a wagnificent physician" who, unfortunately, had a way of getting Misself into all sorts of minor difficulties. He stated that the word that most uptly described Dr. ERHEN was "screw-ball". He added that ERREN had been arrested in India for carrying a pistol and had almost gotten both of them shot in Spain.

CONFRACTAL

He took a very strong stand with respect to Dr. ERHEN's character and integrity, and stated that ERHEN would be "the last man in the world to work for the Maxis, as he hated them with all his soul". He would be work for the Maxis, as he hated them with all his soul". He would be trusted that he was a man who certainly could be trusted. However, the stated that the doctor's doing the wrong thing at the wrong time had often created a bad impression on those who did not know his very well. As for being a German agent, he stated that Dr. ERBEN would probably make the worst agent in the world for any nation, since whey have the finger on him in every port in the world". By this where the finger on him in every port in the world". By this had been guilty of some minor infraction of local rules, such as not having the proper papers at the proper time, or saying the wrong thing at the wrong time.

Mr. FLYNN added that he understood that Dr. ERHEN's citiesanship had been revoked, and remarked that he had taken the doctor's case up with Mr. HOOD of the Federal Bureau of Investigation in Los Angeles and with Mrs. ROOSEVELT, and that Mrs. ROOSEVELT had acted in ERHEN's behalf, but to no avail.

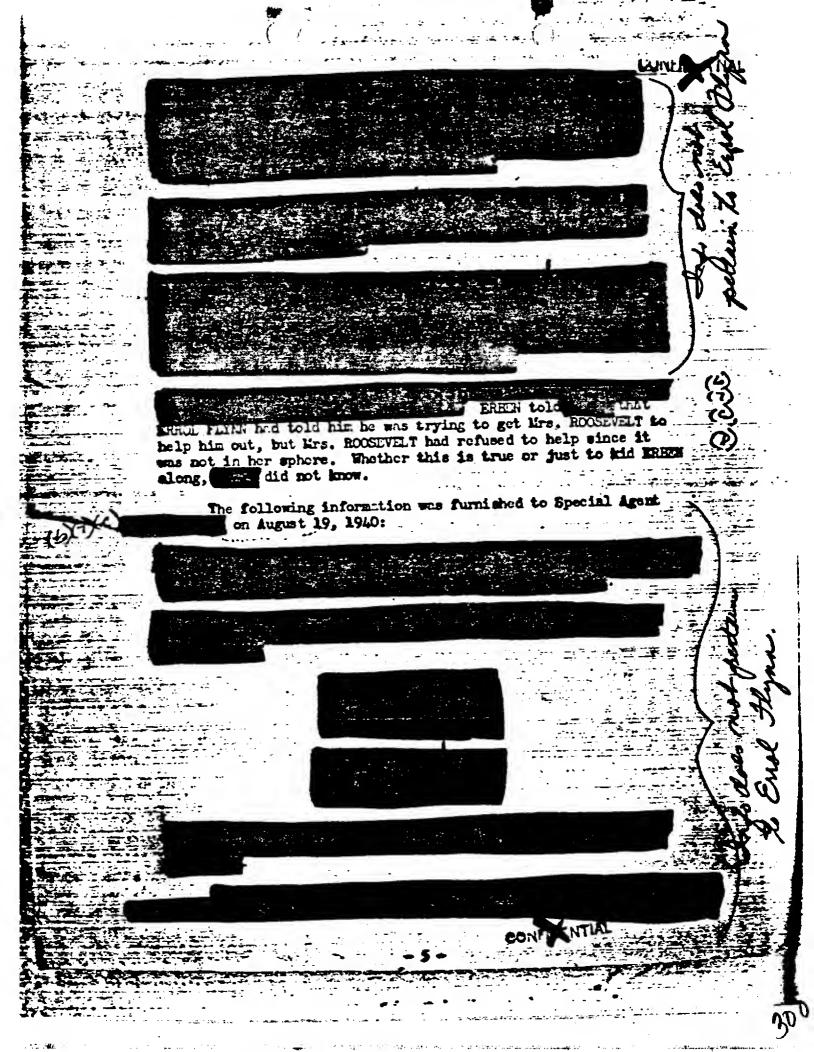

Finally, Mr. FLYNN stated that he sympathized deeply with DR. ERHEN, since he now was a man without a country, and that he falt that an injustice had been done the man in believing him to be a German agent, but that no one was to blame but DR. ERHEN himself. As an indication of Dr. ERHEN's lack of responsibility, it may be mentioned that during his stay in argentine he made a trip to Montevideo at the time of the Admiral Graf Spee incident, despite warnings that his position in Argentina was precarious and he would probably have difficulty in re-entering the country. Upon his return from Montevideo he was imprisoned for want of proper documentation.

reached Shanghai after the war started, had been the victim of the activities of these Doctors. Dr. ERBEN had ingratiated himself with the members of the crew through the fact that he could produce seaman's papers. He was also well versed in union activities and had a common understanding with the crew. ERBEN, working with KIORINI, went to the foreign YNCA where the crew were stopping and arranged for them to go to KIORINI's office for medical attention. They would not be charged for medical services, but were bilked through the writing of expensive drug store prescriptions. The doctors would then receive a handsome percentage of the prescription price. They also prevailed upon the crew members to bother the American Association and the Swiss Consul in matters of minor importance.

Dr. ERBER then attempted to return to the United States as a repatriate, and it is the belief of that if he had been successful in doing so he would definitely have been acting in the United States as an agent of the German government.

Chiang-Kai-Shek's government disregarding the contracts, and he returned to America as ship's surgeon on the liner "Triton", arriving via Japan and Panama in New York in spring 1938.

1938: During his stay in gan pedro, U.S. immigration authorities; (Inspector DAVIS) ordered ERREN to surrender his naturalization certificate, because the government swanted to sheek up somethings. Subject claims that he surrendered his certificate and did not know the reason and his constitutional rights.

It is assumed by the undersigned that the order to surrender his naturalization papers was for the following;

This office received a letter from Mr. Robert I. THERY (Chief Public Safety Branch) in which subject is charged with activities in narcotic traffic. The same letter mentions that a Dr. ERREM is an internationally wanted person. A copy of the letter will be attached to this report.

1938; Since his naturalisation papers were taken away from him; subject returned on the "Margaret Johnson" once more to Europe.

1939;

1939; ERBEN made a trip as surgeon on board the German ship 83 "Ussukuma" around Africa, and also served as ship's surgeon an the 85. "Westerland" on the Antwerp-New York run.

Subject claims that he realized that war was more than likely and attempted to smuggle his two boys who were of military age out of Germany. He states that he would have been able to accomplish the task since he had an assignment en the German ship 88 "Ussukuma" on the "Around Africa" run-His two sons remained in Germany. The outbreak of the war in september 1939 found FRHEN in south African waters. The boat to which he was assigned to as ship's surgeon had left Lourence Marques in Portuguese East Africa and ran the blockade under orders by the German admiralty to act as a supply ship for the femous German ship "Graf apee" to Argentina. off the coast of Bahia Blanca (Coast of Argentina) the syssukumas was sunk by the British cruiser sgreters. Two erew members, so EREEN claims, were American citizens, Helant SCHUETZE from Hamburg and himself. (ERECH still did not know whether he actually lest his citizenship). Both of them contacted U.S. authorities in Buenos Aines. Thus an American citizen, EFREN was not interned as a sailor by the Argentine Government, and was immediately released. He received from the U.S. Consulate in Buenos Aires an American passport (no. 272) and returned to America. ERBEN claims and states that he wanted to show his loyalty as an American citizen and by the first chance he received, he took 100 photographs of the hits which the "graf Spee" had received and suffered during the battle of Montevideo. He states that he gave the films to Consul Mr. EMGLISH who forwarded the films to the U.S. moval Intelligence. ERREN also surrendered to Mr. ENGLISH and Consul Mr. WILSON a detailed log of the blockade running, the type of camouflage used by the 38 "Wasukuma" which he handed over to U.S. naval authorities ..

after he had given all available naval intelligence about derman shipping in the La Plata to U.S. naval authorities, ERHEN crossed via the Andes into Chile to investigate German shipping which had taken refuge in great numbers in Chilean ports. ERHEN further claims that he investigated the German training ship for cedets, "Prival", which was anchored in Valparaiso, and reported results to the local U.S. consulate.

"Mightingale" via west coast ports and Panama for New York, where he arrived at the end of February 1940. In New York he got in touch with U.S. naval authorities and handed to Commander Downer, Third U.S. maval pistrict, films of interned German ships he had taken. He also surrendered the pictures of the "Graf Spee", and made a detailed report about the naval intelligence he had been able to collect by personal contacts with the crews of interned German ships in west coast ports of South American on his way from Valparaise to New York. He also contacted FBI authorities and during his entire stay in New York, from February 1940 on, until she is it for the Nest coast in august 1940, he remained in slower contact with the FBI. The person who received intelligence reports about "Bund" and "German Information purchus activities was a Mr. LANGILL from the FBI. He claims that he furnished American authorities photographs of meetings of the "Bund", the calebration of the visit of the Duke of Saxony at 80th Street, and eriginal Masi decuments.

During

puring March and April, subject served as ship's surgent on the American ship "Panama" making one trip through the Canal Zone. Upon his return, subject's appointment as full time centract surgeon for C.C.C. eamp duty in the IV Capps area had come through. Subject left the Panama line and ment under orders to Ft. Moultry, S.C., for training. After completion he was assigned to Selring, Fla., for active duty.

Subject states that his pending citisenship trial made his remaining as surgeon for the U.S. Government impossible. His contract with the C.C.C. was discontinued by Washington.

gubject went on trial before Judge WEISH in the U.S. District Court in San Francisco; Mr. Louis MERCADO acted as District Attorney and Mr. TRAMUTOLO acted as subject's Defense Counsel. The charge, so subject claims, was that his naturalization should be set aside as illegal, inasmuch as he had not met the requirements for naturalization.

- Subject had not resided actually continuously for five years prior to naturalization in the U.S., but had interrupted his residence for more than 6 months at a time.
- 2. Subject had not resided for 5 months in the county from where he had file his application for Esturalisation, namely, San Francisco County.

subject states that he waited for 22 months for the decision of the Court. Since there was the danger, at least theoretically, that the U.S. might enter the war, in the case of losing his citisenship, subject might face arrest as an enemy alien. To escape the consequences and to avoid possible deportation or internment, subject crossed into Mexico. Subject further claims that his public trial in San Francisco, his stories about "Graf Spee", put the German intelligence on his trail in Mexico City. He was called to a meeting with German Consul General BARON WALLENBERG. After various talks referring to his unjust trial in San Francisco and Hiller's theory that "after all blood was thicker than ink", subject was offered a job as German intelligence agent.

SUBJECT ACCEPTED THE JOB AS GERVAN INTELLIGENCE AGENT

- 1. Subject claims that he accepted the proposition to become a German intelligence agent, fully conscious of the fact that at the present, he was still an American citizen, and thus subject to the penalty of high treason.
- S. FRHEN admits that he was not forced or coersed to accept the job.
- 5. Subject states that he absented the jet on his own free will, and did not intend to construct or claim any authorisation from any of the U.S. government agencies with whom he had previous contact.
- 4. The reason why subject accepted to become a German intelligence agent, so be claims,

was because

THE CASE OF

was because it gave him a unique change to do some intelligence work for the United States. What he had done so far was only what he observed from the outside; now he had a change to work from the inside. He also states that he wanted to show his loyalty to American, and retain or regain his U.S. citisenship, which as far as at that time, January 1941, was still undecided. Subject stated to the interrogator that he was aware of the danger to become a self—styled, free-lance American agent by posing as a German agent.

Enclosure to desp. m 210 dated February 13 1948 from Berlin.

Having agreed to become a German agent, subject was given a false German passport under the name of Alois ECKERT, musician, and so was in possession of two passports, the old American seaman's identification certificate and the above mentioned false German passport.

February 1941: Subject was directed by order of Baron WALLENBERO, German Consul General in Mexico, to proceed to Japan because of his previous experience and knowledge in the Far East. In Tokyo, subject was received by the German Meval Attache Admiral WENNEER and Lt. Cmdr. HELLSTIDT. From Tokyo, subject proceeded for active duty as a German intelligence agent to Shanghai, and was finally attached to the staff of Lt. Cmdr. Louis Theodor SIEFKEN, head of the Abwehr in China.

BUBJECT STARTED WORKING AS A GERMAN INTELLIGENCE AGENT FOR THE ABNERS IN CHINA

It should be noted that at the time subject was working for the German Intelligence Service, he was still in possession of an American passport and his citizenship was still pending in the States. Subject also had a German passport, and so was protected in two ways.

His job was to collect information about Allied shipping, cargo, route of ships, personnel, etc.

gubject was ordered by the German intelligence to pose only as an American citizen, and as a communist. The reason why he had to pose as an American communist could not be obtained from subject. As one reason he states that, as a communist, the American crews would not assume that he was working for the German intelligence. As above mentioned subject went on each boat which arrived in shanghai, invited the crews to go with him to dances and have a good time. On such accasionshe tried to employ crew members for the German invelligence. He states that he was ordered to confuse and make propaganda against the United States which was likely to enter the war. Further he claims, that, to the best of his knowledge, no American crew members were ever

June 1942: Subject's next assignment came in June 1942 when Mr. STEFFEN (head of the Abwebr), intending to smuggle ERENN as an American repatriate on the SS "Conte Verde" to spen a listening post for the Navy in Portuguese East Africa. He was trained in code work and the use of secret ink and given cover addresses in Lisbon, where he was supposed to send his reports. Subject states that

31

-6-

SIEFREN's plan did not succeed because subject did not dare to approach American consular authorities in Shanghai to engineer his repatriation.

1943: Since all plans failed, it is assumed by the interrogator that SIMFREW did not want anything to do with ERECW, and so MREEW was interned by the Japanese. First he was sent to Long-wha and after a short stretch in the notorious Bridge House of the Japanese Rampeitai, he was transferred to Pootung camp, where he remained until his liberation by American troops.

1945: In 1945 subject was employed as a civilian employee of the U.S. Army, 12th Malaria Control Detachment in Kiangwan Airport. At this time he was arrested by the Provost Earshal and lodged in the American Section of Ward R.V. Jail in Shanghai.

Subject states that no charges were read to him, but the official release in the local papers stated that he had been arrested under the suspicion of high treason and war crimes committed by PRBEN. Subject made the following statement to the investigating officers and repeated the same statement to this interrogator:

all want to be tried as an American citizen for whatever acts I have compitted. Even if the technicality of the cancellation of my American citizenship in spring 1941 should have made me from this very moment on stateless and thus a charge of high treason impossible, I want to be tried as an American citizen.

"I accepted the offer to do German intelligence work actually in January 1941 in Mexico City, at a time when I still enjoyed American citizenship. But since I was not notified of the cancellation of my citizenship until 25 January 1943, although I had registered my arrival in Shanghai at the American Consulate in March 1941, and later on registered with the Swiss Consulate for repatriation, I was fully entitled to consider myself an American citizen until January 1943. I can prove this fact by the papers issued to me for repatriation by the Swiss Consulate, stating that I was an American citizen, given to me on 8 December 1942. I have, therefore, on my own responsibility and considering myself an American citizen, served before and after 8 pecember 1941 (that means in times of war between America and Germany) as a German intelligence agent. I do not intend to claim or construct any authorization for such work from any of the U.S. government agencie I had previous dealings with. I also was in no way forced by German authorities to work for them. What I did I considered a unique chance to prove my loyalty to the American flag, whereby I hoped to retain or, if need by, regain my U.S. citizenship. For my acts I alone am responsible and I intend to take full responsibility without reservation.

January 1946; Subject states that he was unconditionally released by the U.S. Army. Let mis release in the motified by Colonel O'COMMOR that Captain Frank T. FARRELL wanted to see subject at his office, 208 RTE. Ferguson, House S. Captain FARRELL who was at that time leading the American Investigation Team with headquarters in Shanghai, Judge Advocate General's Office, and was also considered to be a member of O.S.S., asked ERREM, if he still felt

loyal to America, and if he would care to assist his mission. ERREN agreed and was assigned to duty in January 1946. His rank on the payroll was: Civilian Employee United States army, and his monthly salary started with \$90.00. Subject states that his work with Captain FARRELL is recorded in the government files of the Judge Advocate in shanghai, and consisted mainly in collecting and interpreting evidence for the war Crimes Trial of the 28 defendants, known as the EHRHARDT espionage ring. During the trial he was the main prosecution witness. After the EHRHARDT trial, in February 1947, subject continued to work for Captain FARRELL until his return to America.

prior to Captain FARREIL's departure, he handed subject over to Colonel Amos D. MOSCRIP Jr. who was continuing FARREIL's work in Shanghai.

Subject worked continuously as an American agent for Colonel MOSCRIP in the same capacity as he had worked for Captain FARRELL. ERREN started under Colonel MOSCRIP at \$160.00 per month and was raised after 2 months, in May 1947, to \$200.00 per month. Subject further states that he was on active duty under Colonel MOSCRIP's command until 1 september 1947, the day of his arrest by Chinese authorities, and he has not been notified by his Officer-in-charge to the contrary. His last order, dated 4 september 1947, and sent by cable to subject when he was on board the U.S.A.T. "General Black", read as follows:

"SIGNAL CORFS UNITED STATES ARMY

Received at 2100 s 04 September. Zm Shanghai, China RC NML Shanghai, RNJ CK 30 September 3, 1420.

COMMENTS:

- 1. It would appear that ERREN's employment by US forces in China was terminated by his repatriation to Germany, since this office has received no advice concirning his handling or disposition.

German Agent Tells of Spy Ring in China

Shanghai) Oct. 3 (U.D.—Herman Erederick Erben, Vienna-born physician who was a naturalized American until his citizenship was revoked in 1941, today admitted he was a German spy in China during the war.

Erben testified for the prosccution in the trial of 27 alleged members of Rureau Erhardt, German espionage agency which American authorities contend supplied the Japanese with military information long after the German surrender.

Erben boasted that he used to accompany movie star Errol Elynn on trips aboard the actor's yacnt. He said he became a German spy in Mexico City early in 1941, and later was sent to Shanghai to get information on American ship movements.

Still later, he said he was instructed to seek out the "underground railway" by which Americans, British and other Allied nationals escaped from Shanghai to free China.

Asked if he did not consider his activities traitorous, he denied the allegation, saying "I worked in a capacity that I can fully justify to authorities who know the score."

advised reporting agent on December 3, 19.2, that the last he had heard of subject was about three weeks ago when she attended a party given in the home of FRED/MCAVOY. MCAVOY is well known to the Los Angeles office, he being a play-boy of Australian citizenship who has been the subject of a separate investigation. Except for his associates who have previously been reported as being of a suspicious character, no information has been developed indicating that being of a suspicious character, no information has been developed indicating that he is engaged in subversive activity. He is a great friend of ERROL/FINNN, the actor.

FBI/DO.

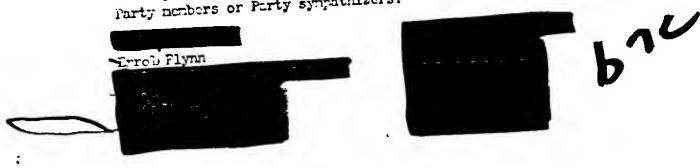

A great deal has been said about Communist activities in novie industry. Allegations have been made by various individuals that certain prominent people in the notion picture industry are Communists or fellow travelers. It is believed that the Dureau's analysis of the Communist situation in Hollywood is well stated, and for that reason there is being set out hereafter the information contained on pages 27 and 28 of the "Quarterly "Truary of National Defense Investigations, issued on liovember 15, 1940. This information is set out under the title, promunist Activities in the lotion Picture Industry".

"During the past five years there have been numerous allegations concerning Communist activities in Hollywood. It is alleged that one of the best sources of income to the Communist Party is in the form of contributions cither directly to the Party, or to Communist Party front organizations, of the luminaries of Hollywood. Thile none of this information has been proved, the allegations are too munerous to be dismissed as fiction.

"In 1937 the Party sought to raise 30,000 for its newspaper, the liestern morker, and it was then disclosed that the principal part of this swa had been constituted by numbers of the movie colony. It may be explained that many persons associated with the novie industry are strongly anti-Fascist in sympathy, and some have become over-zealous in working for the anti-Fascist cause. There is no coubt but what large contributions have been made to fight Fessism. It is equally understandable that funds so donated have become diverted to Communist channels by Communical Party memocra in charge of anti-Fascist front groups."

The following persons have been alleged to be either Party members or Party sympathizers:

(FLYNN) HAVANA -- MOVIE WAPRIOP EPPCL FLYNN TODAY NUPSED A PEAL WOUND HE SAID HE RECFIVED FIGHTING WITH FIDEL CASTED'S PEEELS AGAINST THE BATISTA FORCES IN QUEA.

THE ACTOR DISPLAYED A FLESH WOUND ON HIS RIGHT LEG TO NEWSMEN IN HAVANA. HE SAID HE RECEIVED IT JAN. 1 WHILE ACCOMPANYING CASTPO FORCES IN A SKIPMISH. HE MADE THREE FORAYS WITH THE REBELS IN FASTERN CUBA SINCE CHRISTMAS, HE SAID. CUBA SINCE CHEIST MAS,

HE HAILED CASTRO AS A FRIEND OF EIGHT YEARS AND DEFINITELY NOT

A COMMUNIST. THE IS A PUPE IDEALIST AND THERE "I'M SUPE OF IT," FLYNN SAID.

AREN'T MANY LEFT."

HE CONCEDED THERE MAY BE SOME COMMUNISTS IN CASTPO'S JULY 26
MOVEMENT, BUT SAID THEY APEN'T IN ANY POSITIONS OF POWER."

(IN A PECOPDED INTERVIEW WITH PADIO PRESS IN NEW YORK FROM
HAVANA, FLYNN ACCUSED THE BATISTA FORCES OF ATPOCITIES AGAINST WOMEN?

AND CHILDREN, HE SAID THEY BEAT THEM, CUT OFF THEIR FEET AND PULLED OUT THEIR HAIP.)

FLYNN SAID HE RECFIVED HIS WOUND WHILE WITH CASTRO FORCES.

"THERE WAS SOME STRAFING," HE SAID, "AND AS USUAL WHEN BULLETS ARE FLYING, I TAKE REFUGE." HE SAID HE HID BEHIND A PILLAR.

"UNFORTUNATELY A BULLET PIPPED OFF SOME CHUNKS OF A PILLAR AND EITHER A FRAGMENT OF THE BULLET ITSELF GRAZED ME. IT'S REALLY NOT BUT JUDGING FROM THE FUSS YOU'D THINK I WAS ABOUT TO LOSE A LEG." IT'S REALLY NOTHING.
